FUN FOR ALL AGES!

## YOUTH PROGRAMMING

For schools, day cares,  
libraries and more!

Our workshops explore history,  
geography, architecture, art,  
science and other cultures  
through the familiar medium of  
toys.

- ★ Japanese Paper People: Use beautiful Japanese washi paper to create a doll, inspired by the art of origami. Museum staff will bring examples of dolls from Japan for students to examine and compare.
- ★ Jumping Jack Puppets: Make a jointed, paper puppet while learning about the history of puppets from around the world.
- ★ Optical Toys: Learn about how the “persistence of vision” and other optical illusions have been used to have fun through the ages. Make a Thaumatrope, a toy popular in the 19th century that tricks the eye!
- ★ Japanese Fish Kites: Create a paper koinobori, a traditional way to celebrate Children’s Day in Japan. Other Japanese holidays and festivals are also covered.

See our website for a full list of workshops.

FUN FOR ALL AGES!

## ADULT PROGRAMMING

Our lecture series is an entertaining look into social history through the lens of toys and miniatures. Some of the topics covered are:

- ★ History of the 20th Century Through Toys
- ★ Barbie at 50
- ★ The Miniaturist in the Dutch Golden Age
- ★ Why Dolls Can Give Us the Creeps
- ★ The Devil and DnD: Moral Panics in Gaming

We're also happy to create a custom talk on a topic of interest to your group!

## ADAPTIVE PROGRAMMING

FOR PEOPLE WITH DISABILITIES AND/OR WHO ARE  
LIVING WITH MEMORY IMPAIRMENTS

We strive to be inclusive and accessible for all! Our educators are trained in and keep current on best practices for inclusive programming for people of all ages and ability levels. We have tactile programming perfect for exploring the toys of the past. We also provide multi-sensory craft programs specially tailored to memory care groups.
